ARTICLE 2.20. Town Meeting

ART. 2.20. SECTION 1. Date and Time
For the transaction of other business pertaining to the prudential affairs of the Town, the annual meeting shall be held on the first Monday in June. Any adjournments shall be regarded as parts of the same meeting called for in the Warrant for the annual meeting [amended ATM 6-13-16, art. 23].

ART. 2.20. SECTION 2. Notice

Notice for every adjourned Town Meeting shall be posted by the Town Clerk by placing a notice on the Town bulletin board as soon as practicable after adjournment, stating briefly the business to come before such adjourned meeting.
ART. 2.20. SECTION 3. Warrant

[amended ATM 6-8-15, art. 33]

Whenever any committee has been chosen to report upon the subject matter referred to it at a future Town Meeting, the Selectmen shall, upon the request of the chairman of such committee, insert in the warrant for such meeting any article necessary to bring the subject matter of the report of such committee before the meeting.

ART. 2.20. SECTION 4. Operation of the Meeting
A. The Moderator, after taking the chair, shall call the meeting to order and shall exert his/her best endeavors to preserve decorum in the transaction of the town's business. The Moderator shall receive and submit to the meeting all motions properly made before any debate thereon. The Moderator may speak to all points of order in the preference to any other person, and shall decide all questions of order, subject, however, to an appeal to the meeting from his/her decision when regularly made.

B. No appeal from the decision of the Moderator shall be voted by the meeting unless it is seconded by at least seven persons, and no other business shall be in order until the question on the appeal has been disposed of.

C. The Moderator shall make declaration of all votes passed, and when a question is put, the sense of the meeting shall be taken by the voices, or showing of hands, of those voting. The Moderator shall announce the vote as it appears to him/her. If he/she is unable to decide by the sound of the voices or showing of hands, or if his/her announcement made thereupon is doubted by any voter, rising in his/her place for that purpose, the Moderator shall order a standing vote without further debate upon the question, and no motion whatever shall be entertained by the Chair while verifying a vote.

D. All motions to appropriate funds for any Capital Project with a total cost projected by the Finance Committee at the time of the vote to be in excess of $2 million, or any vote to authorize the King Philip Regional School District to borrow more than $2 million, shall be voted on by secret ballot. This rule may be suspended only by unanimous consent. [amended STM 11/13/06]

E. No person shall speak in a town meeting without consent of the Moderator, nor while another is speaking, and all persons shall, at the Moderator's request, be silent.

F. When two or more persons shall rise to address the Chair at the same time, the Moderator shall name the person who shall first be heard upon the question.

G. No person shall be interrupted by another, but by rising to call him/her to order and the person rising for such purpose shall state his/her point of order. Any person rising to speak or vote shall address the Moderator, and resume his/her seat as soon as he/she has finished speaking.

H. No person shall speak more than twice on one question to the prevention of any other person who has not spoken and is desirous to speak, except the article proponent or a person designated as an authority on the subject matter who is there to answer questions. Presentations by any speaker may be limited to a specified time period if recommended by the Moderator or by any registered voter via a motion. Any recommendation to limit a presentation must also be approved by a majority vote of the meeting. A presentation time period may subsequently be extended by a motion which is adopted by a majority vote of the meeting.
I. Only the Moderator, the Selectmen, Town Administrator, Town Clerk and their secretaries shall be permitted to be seated on the platform without invitation from the Moderator.

J. The Moderator shall appoint tellers whose duty it shall be to return the number of votes, when requested, in their respective sections. All persons shall be seated during the hours of business except in times of voting or speaking.

K. A motion need not be seconded, except as provided in Paragraph B. of this section, and may be withdrawn by the mover if no objection is made.

L. Every main motion shall be in writing and all subsequent motions shall be in writing if the Moderator so directs. All main motions shall be submitted in writing to the Town Clerk's office either on paper or electronically by 12:00 PM on the day of the Town Meeting. For this purpose, motions that are financial need not have dollar amounts unless so stated in the warrant.

M. When a motion has been regularly made and has been stated by the Moderator, it shall be deemed to be in the possession of the meeting, to be disposed of by the meeting, unless it be withdrawn by the mover before a decision or any amendment, as provided in Paragraph L. of this section.

N. A motion to adjourn sine die, to take a recess, to adjourn to a time certain, shall, in the order in which they are named, always be first in order, and may be subject to debate.

O. When a question is under debate, until it is disposed of no motion shall be received but to adjourn the meeting, for the previous question (move the question), to lay on the table, to commit, or recommit, to amend, to refer, or to postpone to a day certain, or to postpone indefinitely which several motions shall have precedence in the order in which they are herein arranged. A motion for the previous question (move the question) will only be in order when it is the sole purpose of the speaker. [amended STM 11/13/06]

P. No motion whose effect would be to dissolve a Town Meeting (sine die) shall be in order until every article in the warrant therefore has been duly considered and acted upon, but nothing herein shall preclude an adjournment of a meeting to a stated time.

Q. On the motion to lay on the table, to take from the table, to commit or recommit, not exceeding ten minutes shall be allowed for debate, and no one shall speak more than three minutes.

R. A motion for reconsideration will only be in order if information is brought to the Moderator’s attention that there is a defect either in procedure or language with an earlier motion that passed. Allowing reconsideration will only be at the Moderator’s discretion. A motion that failed shall not be reconsidered.

S. A motion to amend an amendment may be received but no amendment in the third degree shall be allowed.

T. A main motion to indefinitely postpone an article shall not exclude debate on said article.

U. A question containing two or more propositions capable of division shall be divided whenever desired by any voter, at the discretion of the Moderator.
V. The duties of the Moderator not prescribed by the Statutes or by these Bylaws shall be determined by the general rules of “Town Meeting Time, A Handbook of Parliamentary Law,” latest edition.

W. Warrant Articles of a financial nature shall be first moved by a member of the Finance Committee. If no member of the Finance Committee offers a motion on such article, then any Wrentham registered voter may do so. [amended STM 11/13/06]

X. Warrant articles that, in whole or in part, propose an amendment to these Bylaws shall be first moved by a member of the General Bylaw Review Committee. If no member of the General Bylaw Review Committee offers a motion on such an article, then any Wrentham registered voter may do so.

ART. 2.20. SECTION 5. Location of the Meeting
When necessary, the Board of Selectmen may choose to hold business, Annual or Special Town Meetings outside the geographical limits of the Town of Wrentham. [added STM 3/28/05]

procedures for obtaining criminal history information, to see if there have been any updates to be
sure the Town remains in compliance.

Upon receipt of the fingerprints and the appropriate fee, the Police Department shall transmit the
fingerprints it has obtained pursuant to this bylaw to the Identification Section of the
Massachusetts State Police, the Massachusetts Department of Criminal Justice Information

The Police Department shall indicate whether the applicant has been convicted of, or is awaiting final adjudication for, a crime that bears upon his or her suitability, or any felony or misdemeanor that involved force or threat of force, controlled substances or a sex-related offense.

The Board of Selectmen is authorized to promulgate regulations for the implementation of this, but in doing so it is recommended that they consult with the Chief of Police, Town Counsel and the Massachusetts Executive Office of Public Safety and Security (or its successor agency) to ensure that such regulations are consistent with the statute, the FBI’s requirements for access to the national database, and other applicable state laws. hearing on said application. Notification of the public hearing shall be advertised for two
consecutive weeks in a newspaper generally circulated in Town beginning at least 14 days before
the hearing date. The applicant shall notify all abutters and other parties in interest by certified
mail, return receipt requested, mailed at least 14 days before the hearing date, and shall present
copies of the returned receipts to the Planning Board on or before the hearing date. The
applicant shall pay the cost of the publishing notice.

The applicant must introduce evidence establishing, and the Planning Board must make specific
findings of fact, that each of the following general requirements will be met:

i. that the earth removal may be accomplished without unreasonable danger to the health,
safety and general welfare of the inhabitants of the Town in general nor to that of those
in the immediate vicinity;

ii. that the earth removal will not produce unreasonable noise, dust, or other effects
observable as detrimental to the normal use of adjacent land;

iii. that the earth removal and change in topography may be accomplished without adverse
effect to abutting land by reason of surface water drainage nor to the recharge of the
water table nor to the pumping rate of any nearby Town well site; and,

iv. that the earth removal will not have a material adverse effect on the health or safety of
persons living in the neighborhood or on the use or amenities of adjacent land.

ART. 7.11. SECTION 7. Earth Removal Permit Decision and Required Conditions
The Planning Board may grant, grant with conditions, deny, or grant in part and deny in part, any Earth
Removal permit application or application for permit renewal. The Planning Board shall file a copy of its
permit decision in the office of the Town Clerk, and mail a copy of its decision to the applicant, within 30
days after the close of the last public hearing or the application. In the event that the Planning Board
shall fail to file its decision in the office of the Town Clerk within 100 days of the filing of the application,
or by such a later date to which the applicant may agree in writing, the application shall be deemed to be
constructively granted subject to the general conditions set forth herein.

All work performed under a permit granted under this bylaw shall be done in accordance with the
required conditions set forth below, which shall be deemed to be incorporated therein by reference,
unless specifically waived or modified by the Planning Board. The Planning Board may waive or modify
any of the required conditions if such action is consistent with the purposes and intent of this bylaw and
will not substantially compromise the protection of the public and the environment.

A. All trees are to be cut, not bulldozed. All trees and brush are to be chipped on site unless
removed for commercial purposes. Stumps may not be buried on the site except in accordance
with a site assignment issued under G.L. c. 111, § 150A.

B. All loam and topsoil must be scraped and stockpiled on the site for use in later landscaping. No
loam or topsoil may be removed from the site.
C. Excavation to the property line is not permitted. The Site Plan shall designate a minimum 50-foot buffer strip along the property lines where the earth and vegetation shall remain undisturbed.

D. Earth must be removed to contours set forth in the approved Site Plan. Boulders must be buried at a depth which will provide a six (6) foot cover at finished grade. Ledge shall not be left exposed under normal circumstances. If ledge is encountered, the permittee must either remove it, or submit a revised Site Plan for approval which must be approved before work is continued.

E. Slopes shall not exceed a 3:1 ratio and a 4:1 ratio is preferred where practical. A 4:1 slope may be required in areas determined to be sensitive by the Planning Board.

F. Earth removal shall be carried out in four (4) acre grids and not over the entire site at one time. After each such grid has been excavated, the land shall be brought to rough finish grade and loam spread to a depth of not less than six (6) inches to bring the land to finished grade before proceeding to the next excavation area. This regrading area must then be seeded with an acceptable perennial grass at the rate of not less than two hundred pounds per acre and the area maintained until the grass heights have reached the two (2) inch minimum. In appropriate cases, the Planning Board may modify this requirement in the light of special requirements of site work to allow regrading at the end of the removal operation upon making specific findings of fact as to why such modification is required.

G. The regrading and seeding of each grid or disturbed area shall be completed, according to specification, within 30 days of the completion of excavation of the grid, expiration of the special permit or upon cessation of operations, whichever occurs first.

H. Finished grades shall be as indicated on the approved site plan. In general, finished grades may not be designed to be below the level of any abutting public way unless the Planning Board determines, based upon satisfactory engineering data, that a finished grade below the elevation of an abutting way is advantageous to the plan for future use of the property.

I. Topsoil must be spread to a depth of not less than six (6) inches over disturbed areas and seeded and maintained as stated previously.

J. Fingerling fir, white pine or other approved tree cover shall be planted over the entire disturbed area at five (5) to six (6) feet on center.

K. No excavation shall be made at less than ten (10) feet above annual high water table as established from test pits and soil borings. A minimum of three (3) observation wells shall be monitored for one (1) year to establish the high water table ground plane elevation. Additional wells may be necessary on sites exceeding ten (10) acres. This data shall be shown on the site plan submitted to the Planning Board for approval and on a permanent monument placed on the property and shown on the site plan.

L. All access roads leading to public ways shall be treated to minimize dust and mud for a distance of not less than two hundred (200) feet back from the public way. Any spillage on public ways shall be cleaned by the applicant on a twice-daily basis, including once following the close of normal working hours.

M. Unless the site conditions expressly require alteration of drainage patterns, the land shall be left so that natural storm drainage shall leave the property at the original natural drainage points; and so that the total discharge at peak flow, and the area of drainage to any one point, is not increased; and so that the hydrography of any post-development stream is the same as that of the pre-development stream.
N. Any earth removal in the vicinity or within wetland areas governed by M.G.L. Ch.131 or other wetlands related laws, shall also be subject to orders of conditions from the Conservation Commission. Whether such proposed earth removal projects fall within the jurisdiction of the Conservation Commission shall be determined by the Conservation Commission and the applicable Town, State and Federal laws.

O. The applicant shall be responsible for monitoring the amount of earth removed from the site. A bi-weekly report, prepared and certified by a registered civil engineer, licensed to practice in the Commonwealth of Massachusetts, shall be forwarded to the Planning Board for the duration of the earth removal project. The report shall include a daily account of the number of truckloads of earth removed from the site, the number of cubic yards of earth contained in each truckload, daily and weekly totals of the number of cubic yards of earth removed from the site and a cumulative total, from project inception to date, of the number of cubic yards of earth removed from the site.

ART. 7.11. SECTION 8. Special Conditions
The Planning Board shall set forth particular hours of operation for each individual operation as a special condition.

The Planning Board may impose additional special conditions deemed necessary in the light of circumstances. Special conditions may include, without limitation, requirements or limitations relating to the proximity of residential or commercial uses that might be affected by dust, noise and traffic, blasting with respect to ledge removal, drainage matters, lateral support of abutting property and the like.

ART. 7.11. SECTION 9. Bond Requirement
Prior to the start of any work under a permit granted hereunder, a surety company bond or deposit of money (which may take the form of an assignment of a bank account assented to by the depository bank) shall be delivered to the Planning Board to ensure compliance with this bylaw and of the conditions of the permit. The bond shall have a term of not less than two (2) years beyond the estimated completion date of the earth removal project. Such bond or other security shall be held by the Town Treasurer until the permit holder submits an “as built” plan, prepared and certified by a registered civil engineer licensed to practice in the Commonwealth of Massachusetts, showing that all excavation has been to grades approved on the Site Plan, and that all restoration work has been completed.

ART. 7.11. SECTION 10. Term of Permit and Permit Renewal
No permit shall be issued for a period in excess of 12 months.

A permit may be renewed annually, upon written request of the applicant to the Planning Board. The Planning Board may impose a renewal application fee under SECTION 6.B.1., and may charge the applicant the reasonable costs of its own consultants under Section 6.B.2.

A permit renewal application shall include a letter prepared by a registered civil engineer licensed to practice in the Commonwealth of Massachusetts, certifying that all work performed under the prior permit was undertaken in substantial compliance with the approved plans and permit requirements and conditions, and setting forth what deviation, if any, exists from those plans and permit requirements. The Planning Board may require submission of further materials, including, without limitation, reports of engineers or consultants.

A renewal request must be received by the Planning Board at least 65 days before the expiration of the prior permit. Within 14 days of its receipt, the Planning Board shall post notice of the request for permit renewal for at least 10 days. A permit may be renewed without public hearing, unless an abutter or
other party in interest requests a public hearing in writing within the first 10 days the notice is posted. If
a public hearing is requested, the notice and burden of proof provisions of Section 6.D. shall apply.
The Planning Board shall hold its meeting, or commence the public hearing on the request within 65
days of its receipt. The Planning Board shall notify the applicant of its decision within 21 days after the
close of the meeting or the public hearing. If a prior permit has lapsed before a determination on a
permit renewal has been made final, no Earth Removal may be performed.
The Planning Board may renew a permit only upon a showing that the activities carried out under the prior
permit were performed in accordance with the plans, specifications and conditions of the prior permit, and
that the activities proposed under the renewed permit will not entail Earth Removal of a larger quantity or
from a larger portion of a lot than allowed on the prior permit.
The Planning Board may impose additional conditions upon a renewed permit, and may renew it for any
period of time, not to exceed 12 months.

ART. 7.11. SECTION 11. Earth Removal Operations in Existence
This Bylaw shall take effect 30 days from the date of its approval by the Attorney General of the
Commonwealth. Earth Removal operations in existence on May 1, 1999, may continue through June 30,
2000, provided that an application for any such operation is filed with the Planning Board before March 1,
2000. A Special Permit issued under Article 14 of the Wrentham Zoning bylaw (as adopted by the Town on
December 21, 1987) between December 21, 1987 and the effective date of this bylaw shall be treated as
an original permit under this bylaw expiring on July 1, 2000, and may be renewed annually pursuant to
Section 10 of this bylaw, subject to any reasonable conditions imposed by the Planning Board under this
bylaw.

ART. 7.11. SECTION 12. Earth Removal in Connection with Other Uses
In appropriate circumstances, the Planning Board may combine any hearing required under this Bylaw
with the hearing on an application for definitive plan approval under G.L. c. 41, §81U, or an application
for a special permit or site plan approval under the Wrentham Zoning Bylaw, and may accept plans or
information submitted in support of such applications in satisfaction of the requirements of this Bylaw. In
such cases, the Board shall ensure that the separate requirements of this Bylaw are met, and shall issue
a separate permit under this Bylaw.

ART. 7.11. SECTION 13. Enforcement and Penalty
The Building Inspector shall be responsible for enforcing provisions of this bylaw and the decisions
rendered in accordance with Sections 6.0 and 9.0 herein. Once notified by the Building Inspector, an
Earth Removal operator shall immediately cease such activities or begin to correct such conditions
determined to be contrary to said provisions or decisions. Failure to do so shall constitute a non-criminal
violation subject to a fine in accordance with MGL c. 40, s. 21D, as follows: fifty dollars for the first
offense, one hundred dollars for the second offense, and two hundred dollars for each subsequent
offense. (amended ATM 4/30/01)

ARTICLE. 7.12. Scenic Roads
[amended STM 11-12-13, art. 14]

ART. 7.12. SECTION 1. Purpose
The purpose of this bylaw is to increase environmental protection, maintain aesthetic qualities, and
preserve the historical values of designated roads in the Town. The bylaw regulates certain roadway
repair, maintenance and reconstruction activities in order to help achieve these objectives.
ART. 7.12. SECTION 2. Definitions

In the absence of contrary meaning established through legislative or judicial action pursuant to M.G.L. (Massachusetts General Law) Chapter 40, Section 15C, the following terms contained in that statute shall be defined as follows:

A. “Cutting or removal of trees” shall mean the destruction of one or more trees having a trunk diameter of four (4) inches or more measured four (4) feet from the ground, trimming of major branches or trimming of roots sufficient in the Tree Warden’s opinion to cause eventual destruction of a tree. Not included in this definition is the routine or emergency maintenance which removes only permanently diseased or damaged limbs, trunks, or roots, and dead whole trees.

B. “Repair, maintenance, reconstruction, or paving work” shall mean any work done within the right of way by any person or agency, public or private. Construction of new driveways or alterations of existing ones is included to the extent such work takes place within the right-of-way. Roadside clearing of trees to provide for vehicle clearance or for improvement to line-of-sight shall also be included in this definition. Construction of alteration of water, sewer, electric, telephone, cable TV of other utilities within the right-of-way is also included.

C. “Road” shall mean the right-of-way of any way used and maintained as public way including the vehicular traveled way, plus shoulders, the portion of intersecting driveways within the right-of-way, and necessary appurtenances within the right-of-way such as bridge structures, drainage systems, retaining walls, and paths. When the boundary of the right-of-way is in issue so that there is a question as to whether or not certain trees or stone walls or portions thereof are within or without the way, the trees or stone walls shall be presumed to be within the way until the contrary is shown.

D. “Tree” shall mean a perennial woody plant whose trunk has a diameter of four (4) inches or more as measured four (4) feet above the ground.

E. “Stone Wall” shall mean an assembled grouping of stones comprising at least one (1) cubic foot of stone per linear foot and totaling five (5) or more feet in length.

F. “Tearing down or destruction of stone walls” shall mean the removal or covering with earth of more than two (2) linear feet of stone wall. Temporary removal and replacement with the same materials at the same location within thirty (30) days shall not be construed to be within this definition.

ART. 7.12. SECTION 3. Procedure for Scenic Road Designation

A. Process

1. Any person or group of persons may submit an application to the Town Administrator to request that a public road be designated as a scenic road. Such application shall be accompanied by a written description of the characteristics of the road that qualify it for protection afforded by this chapter.

2. The Town Administrator shall refer all such applications to the Planning Board, the Conservation Commission and the Historical Commission within 15 days of the date of receipt of the application.

3. Within 45 days of receipt of an application thereunder, the Planning Board, the Conservation Commission and the Historical Commission may make a recommendation to the Board of Selectmen or request in writing that the road described in the application be designated a
4. Designation is by majority vote of Town Meeting.

B. Findings
In considering whether to recommend a road as a scenic road to the Town Meeting, the Board shall consider the following factors:

i. Historic significance of affected trees and stone walls.

ii. Contribution of trees and stone walls to scenic beauty.

iii. Exceptional qualities of trees in terms of age, spread, species or specimen size.

iv. Protection of natural resources as well as scenic and aesthetic quality of area including scenic views.

v. Bordering land uses, present and prospective, and how they impact the importance of retaining trees and walls.

vi. Feasibility of accomplishing the intent of the Scenic Roads Act in light of road design and use.

C. Non-qualifying roads
Numbered routes and state highways may not be designated scenic roads.

ART. 7.12. SECTION 4. Review Procedures for Work Within Designated Scenic Roads

A. Scenic road work permit
The Planning Board shall issue a scenic road work permit in accordance with the following review procedures. The Planning Board shall advertise, notify abutters and hold a public hearing on all work permit applications filed hereunder, in accordance with the notice requirements of M.G.L. Chapter 40A, Section 11.

B. Activities requiring approval
Within a public road layout which has been designated a scenic road, the following activities shall require approval of the Planning Board in accordance with the provisions of this article: The cutting or removal of trees and/or the tearing down or destruction of stone walls or portions thereof, in connection with repair, maintenance, reconstruction, paving or other work within the layout of a public road.

C. Imminent threats to public safety
In cases where an imminent threat to public safety newly arises and does not allow sufficient time to obtain advance approval of the Planning Board as required by this chapter, the Planning Board must be notified within five business days of any action taken which, had such a threat not arisen, would have been a violation of this article.

D. Application content
1. A notice identifying the location of the proposed activity which enables readers to reasonably locate it on the ground, without need for additional references, describing the proposed changes to tree(s) and/or stone wall(s).
2. A certified abutters list prepared by the Wrentham Assessor’s Office including owners of land which is both abutting and within 300 feet of the affected scenic road location.

3. A plan, describing the proposed activity and mitigation measures, including protection, restoration and any compensatory efforts.

4. A certificate by the petitioner attesting to the marking of all trees and walls to be affected, sufficient to enable the Board and all interested parties to identify those trees and walls.

5. Photographs of all stone walls and trees within the proposed work area.

6. Application form.

E. Public Shade Tree Act

Whenever feasible, notice shall be given and Planning Board hearings shall be held in conjunction with those held by the tree warden acting under M.G.L. Chapter 87. The consent of the Planning Board to a proposed action shall not be regarded as inferring consent by the tree warden, or vice versa. The Planning Board decision shall contain a condition that no work should be done until all applicable provisions of the Public Shade Tree Law, M.G.L. Chapter 87, have been complied with.

F. Fees

Actual advertising costs and abutter notification mailings for a scenic roads work permit shall be borne by the petitioner and shall be billed directly to the petitioner. A scenic roads work permit fee shall be established by the Planning Board to cover the town’s administrative costs.

G. Compensatory actions

1. Since the purpose of this chapter is to protect the scenic quality and character of designated scenic roads, the Planning Board shall approve the proposed work only upon finding that adequate compensatory actions have been included in the applicant’s proposed plan. The Planning Board shall consider the value of compensatory actions, such as the planting of new replacement trees or the reconstruction of stone walls, in making its decision. Reasonable measures should be taken in road widening and traffic safety projects on scenic roads so as to minimize tree removal and destruction of any portion of a stone wall. All feasible measures should be employed in the construction to minimize the removal of trees, stone walls and the grade of adjacent lands.

2. Limited review standards

(a) Replacement Trees.

(1) Trees destroyed shall be replaced with nursery grade trees on the following basis:

<table>
<thead>
<tr>
<th>Tree Removed</th>
<th>Replacement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 12 inches dbh caliper</td>
<td>2 trees minimum, 2-inch caliper</td>
</tr>
<tr>
<td>12 inches to 24 inches dbh caliper</td>
<td>6 trees minimum, 2-inch caliper</td>
</tr>
<tr>
<td>Over 24 inches dbh caliper</td>
<td>8 trees minimum, 2-inch caliper</td>
</tr>
</tbody>
</table>

[amended STM 11-10-14, art. 13]

(2) The Planning Board shall approve the final specimen and replanting location selected with a preference for replacement tree(s) planted within the outer edge of the right-of-way.
(3) The preference is for replacement tree(s) to be planted in the vicinity of the original tree removal location, however, in the event compensatory planting is not feasible or desirable near the project site, the Planning Board, upon recommendation from the Tree Warden, may authorize compensatory planting in alternate locations based on the following preference:

First: Compensatory tree planting will occur within the outer edge of the right-of-way of the same scenic road, in close proximity to the proposed location of tree removal.

Second: Compensatory tree planting will occur in suitable location(s) on same scenic road as proposed tree removal location.

Third: Compensatory tree planting will occur on another scenic road in Wrentham.

Fourth: Compensatory tree planting will occur in another location in Town.

(b) Stone walls shall be replaced so as to reconnect with undisturbed walls - wherever physically possible.

(c) Reasonable steps to be described in D(4)(c) will be taken to insure protection of tree trunks, branches, and root systems of remaining trees in the project area from temporary or permanent damage.

H. General

The Planning Board, after a public hearing consistent with the provisions of this article of the Town Bylaws, may adopt additional regulations for carrying out provisions hereof.

ART. 7.12. SECTION 5. Enforcement

The Planning Board and the Tree Warden shall have the authority to enforce the provisions of this section, as applicable.

1. Any violation of this bylaw, whether for the tearing down or destruction of stone walls or the cutting or removal of trees, shall result in a fine levied against the offending property owner, in the amount specified in ART. 4.7, SECTION 7B. Each day, or portion thereof, that a violation of this bylaw continues shall be deemed a separate offense. [amended ATM 6-8-15, art. 34]

the Town of Wrentham by controlling activities likely to have a significant or cumulative effect upon the
important public values of those areas, which include, without limitation, the following: public or private
water supply, ground water supply, flood control, erosion and sedimentation control, storm damage

Failure to pay any fee required by regulations duly promulgated by the Commission shall be grounds for denial of the application.

B. Consultant Fee

The Commission is authorized to require the applicant to pay the reasonable costs and expenses borne by the Commission for specific expert engineering and consultant services deemed necessary by the Commission to review any application and/or submissions, and to monitor or provide field services required under an Order of Conditions. Such services may include, without limitation, the delineation, survey, monitoring, and inspection of wetland resource areas including any construction within Conservation Commission’s jurisdiction, including an analysis of resource area values, hydrogeological and drainage analyses, evaluation of wildlife habitat, and legal services. The Commission is authorized to charge the applicant for said fee based upon its reasonable finding that the additional information acquirable only through outside consultants would be necessary for the making of an objective decision, and when the application or request for determination proposes any of the following:

i. the alteration of 500 square feet or more of any land under a water body or bordering vegetated wetlands;

ii. the alteration of 50 linear feet or more, or the alteration of 10% or more, whichever is less, of the bank of any water body or waterway;

iii. the alteration of 1000 square feet or more of the buffer zone;

iv. the creation or evaluation of any point source discharge, detention or retention basin, water control structure or wetland replication area;

v. new construction proposed within any area that falls within the jurisdiction of the Conservation Commission as listed in Paragraph 3., Jurisdiction; or,
vi. the determination of the boundary line of any resource area by the Commission.

Said fee may be requested of the applicant within thirty (30) days of the filing of the application, or from the last amendment thereto. In its request, the Commission shall identify the consultant it has selected and include an estimate of the charges for the proposed services. The applicant may appeal the selection of the consultant to the Board of Selectmen within ten (10) days of receiving notice from the Commission of the same. The Selectmen may set aside the selection of the consultant only if the consultant lacks sufficient qualifications to perform the work or has a conflict of interest.

Any fees paid to the Commission under this section shall be placed into a professional services conservation account.

C. Waiver/Non-Applicability of Fees

No application or consultant fees shall be due from the Town of Wrentham in connection with any project performed by the Town or on its behalf, or from any person having no financial connection with a property which is the subject of a request for determination.

D. Revolving Fund

Subject to the adoption of appropriate regulations by the Conservation Commission under G.L. Ch. 40, Section 8C, any consultant fees collected under Paragraph 7. shall be deposited, expended, and accounted for under the provisions of G.L. c. 44, Section 53G.

ART. 7.31. SECTION 7. Notice and Hearings

Any person filing a Notice of Intent with the Commission at the same time shall give written notice thereof, by certified mail (return receipt requested) or hand delivered, to all abutters at their mailing addresses shown on the most recent applicable tax list of the assessors, including owners of land directly opposite on any public or private street or way, and abutters to the abutters within 100 feet of the property line of the applicant, including any in another municipality or across a body of water. The notice to abutters shall state where copies of the permit application may be examined and obtained by abutters. An affidavit of the person providing such notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. When a person requesting a determination is other than the owner, the request, the notice of the hearing, and the determination itself shall be sent by the applicant to the owner as well as to the person making the request.

The Commission shall conduct a public hearing on any permit application or request for determination, with written notice given at the expense of the applicant, five business days prior to the hearing, in a newspaper of general circulation in the Town of Wrentham.

The Commission shall commence the public hearing within 21 calendar days from receipt of a completed permit application or request for determination unless an extension is authorized in writing by the applicant.

The Commission shall issue its permit or determination in writing within 21 calendar days of the close of the public hearing thereon unless an extension is authorized in writing by the applicant.

The Commission in an appropriate case may combine its hearing under this bylaw with the hearing conducted under the Wetlands Protection Act, G.L.C. 131, Sec. 40, and Regulations 310, CMR 10.00. Notice of a hearing so combined shall not be considered defective solely because it fails to make reference to this bylaw.
The Commission shall have authority to continue the hearing to a date certain announced at the hearing, for reasons stated at the hearings, which may include receipt of additional information offered by the applicant deemed necessary by the Commission in its discretion, or comments and recommendations of local, State or Federal Regulatory agencies. In the event the applicant objects to a continuance or postponement, the hearing shall be closed and the Commission shall take action on such information as is available.

ART. 7.31. SECTION 8. Burden of Proof

The applicant shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the permit application will not have unacceptable significant or cumulative effect upon the interests protected by this bylaw. Failure to provide adequate evidence to the Commission supporting this burden shall be sufficient cause for the Commission to deny such permit or to grant a permit with conditions.

ART. 7.31. SECTION 9. Permits and Conditions

If, after said hearing, the Commission determines that the activities which are subject to the permit application are likely to have a significant or cumulative effect upon the interests protected by this bylaw, the Commission, within 21 days of the close of the public hearing or such further time as the Commission and the applicant shall agree on, shall issue or deny a permit for the activities proposed. If it issues a permit, the Commission shall impose conditions which it deems necessary or desirable to protect those interests, and all work shall be done in accordance with those conditions.

The Commission is empowered to deny a permit for failure to meet the requirements of this bylaw; for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards, and other requirements in regulations of the Commission; for failure to avoid or prevent unacceptable significant or cumulative effects upon the interests protected by this bylaw; and where no conditions are adequate to protect those interests. Due consideration shall be given to any demonstrated hardship on the applicant by reason of denial, as presented at the public hearing.

Lands within 200 feet of perennial rivers and streams, and lands within 100 feet of other resource areas, are presumed important to the protection of these resources because activities undertaken in close proximity to resource areas have a high likelihood of adverse impact upon the wetland or watercourse, either immediately, as a consequence of construction, or over time, as a consequence of daily operation or existence of those activities. In addition, such areas are often vital to the preservation of species that depend on wetlands for food or reproduction. The Commission therefore will require that the applicant maintain a fifty-foot wide continuous strip of undisturbed vegetative cover within the 200-foot (or 100-foot) area. A variance to this criteria may be granted under three circumstances: 1) if the applicant demonstrates that the proposed project will have no adverse affect on any of the interests protected by this bylaw; 2) if the project is a rare or unusual case; and 3) if the project is not approved by the Commission this action will restrict the use of the property to such an extent to constitute a constitutional taking without compensation. If no evidence is supplied to support the claims that the project meet the specified criteria above the hearing will be delayed or continued until this information is provided, or the project request will be denied without prejudice.

To prevent wetlands loss, the Commission shall require applicants to avoid wetlands alteration wherever feasible, to minimize wetlands alteration, and where alteration is unavoidable, to incorporate mitigation measures into the project design.

A permit shall expire three years from the date of issuance. Notwithstanding the above, the Commission in its discretion may issue a permit expiring five years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work is given to the Commission. Any permit may be renewed for up to three years, unless otherwise set by the
Commission, provided that a request for a renewal is received in writing by the Commission one month prior to expiration.

For good cause the Commission may revoke a permit or determination issued under this bylaw after notice to the holder of the permit or determination, notice to the public, abutters, and town boards, pursuant to Paragraphs F. and G., and a public hearing.

The Commission in an appropriate case may combine the permit or determination issued under this bylaw with the Order of Conditions or Determination of Applicability issued under the Wetlands Protection Act, G.L.C. 131, Sec. 40, and Regulations 310, CMR 10.00.

No work proposed in any permit application shall be undertaken until the permit issued by the Commission with respect to such work has been recorded in the Registry of Deeds or, if the land affected is registered land, in the registry section of the land court for the district wherein the land lies, and until the holder of the permit certifies in writing to the Commission that the permit has been recorded.

**ART. 7.31. SECTION 10. Security**

As part of a permit issued under this bylaw, the Commission may require, in addition to any security required by any other town or state board, commission, agency or officer, that the performance and observance of the conditions imposed hereunder be secured wholly or in part by one or more of the methods described below:

i. by a proper bond or deposit of money or negotiable securities, sufficient in the opinion of the Conservation Commission to secure performance of the conditions and observance of the safeguards of such permit, to be released upon the issuance of a certificate of compliance for work performed pursuant to the permit; or,

ii. by a conservation restriction, easement, or other covenant enforceable in a court of law, executed and duly recorded by the owner of record, running with the land to the benefit of the Commission whereby the permit conditions shall be performed and observed before any lot may be conveyed other than by mortgage deed.

**ART. 7.31. SECTION 11. Regulations**

The Commission shall promulgate after due notice and public hearing Rules and Regulations to effectuate the purposes of this bylaw. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this bylaw.

At a minimum these regulations shall define key terms in this bylaw not inconsistent with the bylaw and procedures governing the amount and filing of fees.

**ART. 7.31. SECTION 12. Enforcement**

No person shall remove, fill, dredge, build upon, degrade, or otherwise alter resource areas protected by this bylaw, or cause, suffer, or allow such activity to continue or allow such fill or other alteration to be left in place, without the required authorization pursuant to this bylaw.

The Commission, its agents, officers, and employees shall have authority, with prior approval from the property owner or pursuant to court process, to enter upon privately owned land for the purpose of performing their duties under this bylaw and may make or cause to be made such examinations, surveys, or sampling as the Commission deems necessary.

The Commission shall have authority to enforce this bylaw, its regulations, and permits issued thereunder by violation notices, administrative orders, and civil and criminal court actions. Any person who violates
provisions of this bylaw may be ordered to restore the property to its original condition and take other
action deemed necessary to remedy such violations.

Upon request of the Commission, the Town Administrator and the Town Counsel shall take legal action
for enforcement under civil law. Upon request of the Commission, the Chief of Police shall take legal
action for enforcement under criminal law. [amended ATM 6-8-15, art. 33]

Municipal boards and officers, including any police officer or other officer having police powers, shall have
authority to assist the Commission in enforcement.

Any person who violates any provision of this bylaw, or regulations, permits, or administrative orders
issued thereunder, shall be punished by a fine in the amount specified in ART. 4.70, SECTION 7.B. Each
day or portion thereof during which a violation continues, or unauthorized fill or other alteration remains
in place, shall constitute a separate offense, and each provision of the bylaw regulations, permits, or
administrative orders violated shall constitute a separate offense. [amended ATM 6-8-15, art. 34]

As an alternative to criminal prosecution in a specific case, the Commission may issue citations under the
non-criminal disposition procedure set forth in M.G.L. c. 40, s. 21D.

ART. 7.31. SECTION 13. Appeals
A decision of the Commission shall be reviewable in the Superior Court in an action filed within 60 days
thereof, in accordance with General Laws chapter 249, Section 4.

ART. 7.31. SECTION 14. Relations to Wetlands Protection Act
This Bylaw is adopted under the Home Rule Amendment of the Massachusetts Constitution and the Home
Rule statutes, independent of the Wetlands Protection Act, G.L.C. 131, Sec. 40, and regulations 310, CMR
10.00, thereunder.

ART. 7.60. SECTION 2. Demolition of Historically Significant Properties

[STM 10/15/01]

A. Intent and Purpose

This Bylaw is enacted for the purpose of protecting the historic and aesthetic qualities of the Town by encouraging the preservation of historically or architecturally significant buildings and structures within the Town, and to encourage owners of such properties to seek out persons who might be willing to purchase, preserve, rehabilitate or restore such buildings or structures rather than demolish them, and to allow an appropriate historical record of such buildings and structures to be created.

B. Definitions

1. Building: A fixed combination of any materials, having a roof, common walls and passageway areas, and forming a structure for the shelter of persons, animals or property.
2. Commission: The Wrentham Historical Commission
3. Inspector: The Wrentham Building Commissioner. [amended ATM 6-8-15, art. 33]
4. Demolition: Any act of willfully pulling down, destroying, removing or razing a building or structure, or commencing the work of total or substantial destruction with the intent of completing the same.
5. Significant Building or Structure:
   i. Any building or structure listed on the National Register or eligible for National Register listing.
   ii. Any building or structure researched and found by the Commission to be historically significant, or architecturally significant in terms of construction, or by association with an important architect, builder, person or event.

C. Procedure

1. Within seven (7) days of receipt of an application for a demolition permit for a building or structure which is fifty (50) years or older, the inspector shall forward a copy of this application to the Commission. **No demolition permit should be issued at that time, and no demolition may occur.**
The application shall include all current Field Cards from the Board of Assessors for the
subject property, as well as a description of the demolition intended, including a list of all
structures or portions thereof to be demolished.

2. Within thirty (30) days from the Building Inspector’s receipt of a complete demolition permit
application, the Commission shall determine whether the structure is historically or
architecturally significant. If the Commission determines the building or structure is not
considered significant, the Commission shall so notify the Inspector in writing and the
Inspector may issue a demolition permit.

3. If the building or structure is determined to be significant, the Commission shall so notify the
owner and the Inspector in writing, and the Inspector shall not issue a demolition permit for
a period of twelve (12) months from the date of the application, unless the Commission
informs the Inspector prior to the expiration of said twelve (12) months that the applicant for
demolition has made a reasonable but unsuccessful effort to locate a purchaser for the
building or structure, or one who is willing to preserve, rehabilitate or restore the building or
structure, or has agreed to accept a demolition permit on specified conditions approved by
the Commission. If the Commission does not determine that the building or structure is
considered significant within 30 days of the Building Inspector’s receipt of a complete
demolition permit application, the Inspector may issue a demolition permit.

D. Emergency Demolition
Nothing in this bylaw shall restrict the Building Inspector from immediately ordering the
demolition of any building or structure in the event of an imminent danger to the safety of the
public.

E. Enforcement and Remedies
1. The Building Inspector and/or the Commission, as well as the Town, are authorized to
institute any and all actions and proceedings, in law or equity, as they may deem necessary

threatened violation thereof.

2. No building permit shall be issued with respect to any premises upon which a building fifty
(50) years or older has been voluntarily demolished with disregard for the provisions of the
bylaw, for a period of three (3) years after the date of the cessation of such demolition. As
used herein, “premises” refers to the land contained within the parcel upon which the
demolished building or structure was located and the land contained within all adjoining
parcels under common ownership or control, whether subdivided or re-divided.

3. No permit for the erection of a new structure on the site of an existing building determined
to be a preferably-preserved significant building or structure may be issued prior to issuance
of a permit for demolition of such existing buildings.

F. Appeal

Zoning Board of Appeals.
ARTICLE 7.70.  Board of Health

ART. 7.70. SECTION 1.  Building on Shores of Lakes Pearl, Archer and Mirror

is the subject of such permits, be performed on any property along the shore line of Lake Pearl, Lake
Archer, Mirror Lake without prior approval of the Wrentham Board of Health.  The Board of Health shall

member of the Board of Health, an agent of the Board of Health, or any duly appointed member of the
Wrentham Police Department taking cognizance of a violation of a rule or regulation of the Board of

that statute.  (ATM 4/28/03)

ART. 7.70. SECTION 3.  Carting Materials on the Streets of the Town

refuse liquid or solid matter or substance in any public street or place, excepting in the manner provided
by the Board of Health.

ART. 7.70. SECTION 4.  Reduction of Single-Use Plastic Bags
SECTION 1 — FINDINGS AND INTENT FINDINGS:
The production and use of thin-film single-use plastic check-out bags have significant impacts on the
environment, including, but not limited to: contributing to the potential death of marine animals through
ingestion and entanglement; contributing to pollution of the land environment; creating a burden to solid
waste collection and recycling facilities; clogging storm drainage systems; and requiring the use of millions
of barrels of crude oil nationally for their manufacture.

The purpose of this Bylaw is to eliminate the usage of thin-film single-use plastic bags by all retail
establishments in the Town of Wrentham.

Currently, 93 Massachusetts cities and towns, including Attleboro, Mansfield, Natick, Wayland, and much
of Cape Cod have passed plastic bag bans, and more have bylaws pending.

INTENT:
The Town of Wrentham hereby enacts this bylaw to help reduce the deterioration of the environment and
the ensuing potential health risks by eliminating the use of the thin-film single-use plastic check-out bags
at the point of sale and promoting the use of reusable check-out bags.
SECTION 2 — DEFINITIONS

PLASTIC CHECK-OUT BAG: A plastic check-out bag is a thin film plastic bag, typically with handles, constructed of high-density polyethylene (HDPE), low density polyethylene (LDPE), linear low density polyethylene (LLDPE), polyvinyl chloride (PVC), polyethylene terephthalate (PET), or polypropylene (other than woven and non-woven polypropylene fabric), if said film is less than 4.0 mils in thickness provided to a customer by a retail establishment and used to transport merchandise from the establishment. Plastic check-out bags do not include those plastic bags typically without handles used to contain dry cleaning, newspapers, or small bags used to contain fish, meat, produce or other products provided to the consumer, free of charge, to deliver the items to the point of sale.

REUSABLE CHECK-OUT BAG: "Reusable Check-out bag" shall mean a sewn bag with stitched handles that is specifically designed for multiple reuse and that

1) can carry 25 pounds over a distance of 300 feet;
2) is machine washable; and,
3) is either
   a) made of natural fibers (such as cotton or linen); or
   b) made of durable, non-toxic plastic other than polyethylene or polyvinyl chloride that is generally considered a food-grade material that is more than 4 mils thick.

These bags are generally sold to the customer for a reasonable cost.

RECYCLABLE PAPER BAG: A paper bag that is 100% recyclable and contains at least 40% post-consumer recycled paper content and is provided free of charge to the customer.

RETAIL ESTABLISHMENT: Any retail space located in the town including without limitation a restaurant, food or ice cream truck, convenience store, retail pharmacy, or supermarket.

SECTION 3 — PLASTIC CHECK-OUT BAG PROHIBITION

No retail establishment in the town of Wrentham as defined in Section 2, shall provide plastic check-out bags, as defined in Section 2. Retail establishments in the town of Wrentham, as defined in Section 2, shall only provide reusable check-out bags that comply with the definition in Section 2, or recyclable paper bags, as defined in Section 2, at the point of sale.

SECTION 4 — ENFORCEMENT

This Bylaw may be enforced by any agent of the Board of Health by:

1) Inspection and investigation
2) The issuance of violation notices and administrative orders
3) Civil court actions

Whoever, himself or by his servant or agent or as the servant or agent of any other person or firm or corporation, violates any of the provisions of these regulations, may be penalized by a noncriminal disposition process as provided in M.G.L.c. 40, s.21D.
Each retail establishment shall comply with this by-law.

1) If it is determined that a violation has occurred, the Board of Health shall issue a warning notice to the retail establishment for the initial violation.

2) If an additional violation of this by-law has occurred within one year after a warning notice has been issued for an initial violation, the Board of Health shall issue a notice of violation and shall impose a penalty against the retail establishment.

3) The penalty for each violation that occurs after the issuance of the warning notice shall be no more than:
   a) Written warning for the first offense
   b) $50 for the second offense
   c) $100 for all subsequent offenses.

4) Payment of such fines may be enforced through civil action in the state District Court.

SECTION 5 — EFFECTIVE DATE

All of the requirements set forth in this bylaw shall take effect within six (6) months of the approval of the Office of the Massachusetts State's Attorney General and satisfaction of the posting/publication requirements of G.L.c.40, s.32 for retail establishments with a floor area equal to or exceeding 3,500 square feet. This by-law will take effect one (1) year after passage for retail establishments less than 3,500 square feet. The Board of Health may exempt a retail establishment from the requirements of this section for an additional period of up to six (6) months upon a finding by the Board of Health that (1) the requirements of this section would cause undue hardship; or (2) a retail establishment requires additional time in order to draw down an existing inventory of thin-film, single-use plastic check-out bags.

SECTION 6 — REGULATIONS

1) The Board of Health may adopt and amend rules and regulations to effectuate the purposes of this bylaw.

SECTION 7 — SEVERABILITY

1) If any provision of this bylaw shall be held to be invalid by a court of competent jurisdiction, then such provision shall be considered separately and apart from the remaining provisions of this bylaw, which shall remain in full force and effect.

ARTICLE 7.80. Technical Review Committee

ART. 7.80. SECTION 1. General

A. It is the intention of the Town that every department, board and committee, and their agents and employees, (boards) that are responsible for reviewing and/or acting on applications for the sub-division or development of land, especially within the business and commercial zoning districts, shall act expeditiously and in concert with those boards that are also reviewing and/or acting on the application. [amended ATM 6-8-15, art. 35]

Said boards and committees protect the Town by cooperating and collaborating with each other, communicating their findings to other affected boards on a timely basis, and giving due consideration to the findings of other affected boards so that the goals of the State Statutes and the Town's Bylaws are administered in a manner that is consistent between boards. The boards shall also foster the Town's best interest by concluding their reviews and issuing their decisions in
a timely manner. This practice reinforces local jurisdiction, encourages community-supported
projects, preserves local resources, and maintains the standard of review. In addition, this
process is intended to improve the quality of applications that are received by facilitating the
process that applicants must follow by making permitting more predictable, equitable, cost
effective, and efficient.

B. The Town Planner shall provide information about the function of the Technical Review
Committee to all persons who seek to submit or who are submitting applications to the Planning
Board for that Board's approval. The Town Planner shall provide this information in as timely a
manner as possible, and shall assist any applicant or potential applicant to meet with the
Technical Review Committee and access that committee's services. [added ATM 6-9-14, art. 21]

C. The Boards shall accomplish these purposes by acting jointly, as the Technical Review Committee
(TRC). The TRC shall consist of eight members, including the Town Planner, Health Agent,
Conservation Agent, (or representatives of the Planning Board, Board of Health, Conservation
Commission if the appropriate staff member is not available), Police Department, Fire
Department, Department of Public Works, Commission on Disabilities, and Building Inspection
Department. The representatives shall be appointed by the Board of Selectmen on the
recommendation of the Chairperson or head of the respective elected board, committee or
department. [amended ATM 6-8-15, art. 35]

ART. 7.80. SECTION 2. Role and Responsibility

A. The TRC shall act only in an advisory capacity by helping development and permit applicants to
identify the bylaws, requirements, rules and regulations with which they are expected to comply;
and, assisting boards in the review of proposed projects by identifying the salient issues
regarding projects with which the Town is rightly concerned.

B. The TRC shall:
   i. Meet with prospective permit applicants to listen to the prospective applicant’s ideas for
development and share information;
   
   ii. Inform the prospective applicant of the Town’s bylaws, requirements, rules and
regulations with which the applicant and the proposed project must conform (however,
this in no way changes the applicant’s responsibility to inform himself/herself of all
applicable state and local laws and requirements pertaining to his/her proposed project);

   iii. Advise prospective permit applicants of the most efficient sequence of steps that the
applicant should pursue, such as determination of zoning followed by delineation of
wetlands;

   iv. Assist the boards by identifying the salient issues regarding proposed development
projects with which the Town is rightly concerned; and,

   v. Facilitate communication among the boards and professional staff who regulate and
permit growth and land use.

The recommendations of the Committee shall be those of a majority of the voting members of the Committee, but this shall not be construed to prevent recommendations of the minority as such.

   C. While fulfilling its responsibilities the Committee may request comments or information from any town official or employee who shall give the Committee their full cooperation to identify, evaluate and quantify the financial or other impact on the Town. [added ATM 6-8-15, art. 35]

ART. 7.110. SECTION 1. General
Under the provisions of the Massachusetts Community Preservation Act (Sections 3 through 7 inclusive of M.G.L., Chapter 44B), there is hereby established in the Town of Wrentham a Committee to be known as the “Community Preservation Committee”.

ART. 7.110. SECTION 2. Role and Responsibility
A. Such Committee shall consist of nine (9) members as described below:
   • one member of the Conservation Commission established under Section 8C of M.G.L., Chapter 40, as designated by that commission
   • one member of the Historical Commission established under Section 8D of said Chapter 40, as designated by that commission
   • one member of the Planning Board established under Section 81A of M.G.L., Chapter 41 and Article 3, Section 3.7 of the Charter of the Town of Wrentham, as designated by that board
   • one member of the Board of Park Commissioners established under Section 2 of M.G.L., Chapter 45, as designated by the Board of Selectmen in their role as the Board of Park Commissioners
   • one member of the Housing Authority established under Section 3 of M.G.L., Chapter 121B and Article 3, Section 3.10 of the Charter of the Town of Wrentham, as designated by that authority
   • one member of the Open Space Committee established under Article 7.40 of these bylaws, as designated by that committee
   • one member of the Recreation Committee established under Article 8.30 of these bylaws, as designated by that committee
   • two (2) at-large citizen members, who shall not be paid employees of the Town nor members of any Town body which designates or appoints members to this Committee, appointed by the Board of Selectmen

B. The designees of the above-listed municipal entities shall be appointed forthwith to the Committee by the Board of Selectmen.

All terms shall expire on June 30. Each Committee member’s term shall be for three years, except for the Committee’s initial appointments, which shall be as stated below, so as to have an equal number of terms expiring each year:

   • the initial appointment of the Conservation Commission member, the Historical Commission member and the Planning Board member shall each be for three years
   • the initial appointment of the Board of Park Commissioners member, the Housing Authority member and one at-large citizen member shall each be for two years
   • the initial appointment of the Open Space Committee member, the Recreation Committee member and one at-large citizen member shall each be for one year

The initial appointments of the Committee shall be made in accordance with Section F of this Article. The tenure of any initial term beginning less than 180 days prior to June 30 shall be calculated as if starting on July 1, so that, for example, a member appointed in April for an initial one-year term may serve that term until June 30 of the following year.

At the initial appointment, the Board of Selectmen shall assign to one Committee member the responsibility to call the Committee to its initial meeting.

If a designating body’s member leaves the Committee for any reason, the designating body shall within thirty days submit to the Board of Selectmen the name of one of its members as a replacement to serve for the remainder of the unexpired term. The Board of Selectmen shall forthwith appoint the replacement to the Committee. The Board of Selectmen shall similarly
appoint a replacement for a departing at-large citizen member to serve the remainder of that
citizen member’s unexpired term.

C. The Community Preservation Committee shall study the needs, possibilities, and resources of the
Town regarding community preservation. The Committee shall consult with existing municipal
boards, including the Conservation Commission, the Historical Commission, the Planning Board,
the Board of Park Commissioners, the Open Space Committee, the Recreation Committee and
the Housing Authority. As part of its study, the Committee shall hold one or more public
informational hearings each year on the needs, possibilities and resources of the Town regarding
community preservation possibilities and resources, notice of which shall be posted publicly and
published for each of the two weeks preceding a hearing in a newspaper of general circulation in
Wrentham.

D. The Community Preservation Committee shall make recommendations to Town Meeting for the
acquisition, creation and preservation of open space; for the acquisition, preservation,
rehabilitation and restoration of historic resources; for the acquisition, creation, preservation,
rehabilitation and restoration of property for recreational use; for the acquisition, creation,
preservation and support of community housing; and for the rehabilitation or restoration of open
space and community housing that is acquired or created as provided in this section. With
respect to community housing, the Committee shall recommend, wherever possible, the reuse of
existing buildings or construction of new buildings on previously developed sites.

The Community Preservation Committee may include, in its recommendation to the Town
Meeting, a recommendation to set aside for later spending funds for specific purposes that are
consistent with community preservation but for which sufficient revenues are not then available in
the Community Preservation Fund to accomplish that specific purpose, or to set funds aside for
later spending for general purposes that are consistent with community preservation. The
Committee may recommend the issuance of general obligation bonds or notes in anticipation of
revenues to be raised pursuant to the Massachusetts Community Preservation Act.

In every fiscal year, the Community Preservation Committee shall recommend in accordance with
M.G.L., Chapter 44B, either that Town Meeting spend, or set aside for later spending, not less
than ten percent (10%) of the annual revenues of the Town’s Community Preservation Fund in
each of the following areas: (a) open space and land for recreational use, (b) historic resources,
and (c) community housing.

No expenditures shall be made from the Community Preservation Fund without the approval of
Town Meeting. Town Meeting may not appropriate or reserve any Community Preservation Fund
monies on its own initiative without a prior recommendation by the Committee. Town Meeting
may, however, approve such additional non-Fund appropriations as it deems appropriate to carry
out the recommendation of the Committee. Subject to and without limitation of the foregoing, in
performing the duties and responsibilities of the legislative body as set forth in the Community
Preservation Act, Town Meeting shall, in its sole and absolute discretion, have the power and
authority to accept, reject or modify, in whole or in part, any recommendation by the Community
Preservation Committee.

The Community Preservation Committee shall submit a recommendation for Town Meeting
approval for annual administrative and operating expenses for the Committee, in an amount not
to exceed five percent (5%) of the annual revenues of the Community Preservation Fund.

The Committee shall comply with the provision of the Open Meeting Law (G.L. c.39, s23B). The
Committee shall keep a full and accurate account of all of its actions including its
recommendations and the action taken on them, and records of all appropriations or expenditures
made from the Community Preservation Fund. The records of the Committee shall be public
records, to the full extent provided by law.
E. Requirement for a Quorum and Cost Estimate Requirement

The Community Preservation Committee shall not meet or conduct business without the presence of a quorum. A majority of the members of the Committee shall constitute a quorum. The Committee shall approve its actions by majority vote of the quorum. Recommendations to Town Meeting shall include anticipated costs of the proposed appropriation and a description of the project.

F. Amendments

This section may be amended from time to time by a majority vote of Town Meeting, provided that such amendment would not cause a conflict to occur with M.G.L., Chapter 44B.

G. Severability
